

Abhishek Kumar

Full Stack Devloper

test01@gmail.com • 6206418701 • Punjab, India

ABOUT

Passionate and detail-oriented Full Stack Developer with over 5 years of experience designing, developing, and maintaining scalable web applications. Proficient in JavaScript, TypeScript, React, Next.js, Node.js, Express.js, and MongoDB, with a strong understanding of RESTful APIs, authentication, and cloud deployment. Experienced in building responsive, user-friendly interfaces and optimizing backend services for performance and reliability. Comfortable working in Agile environments, collaborating with cross-functional teams, and delivering high-quality software solutions on time. Adept at troubleshooting complex technical issues, writing clean and maintainable code, and implementing best practices for security and scalability. Continuously learning new technologies and committed to creating innovative digital experiences that improve business outcomes and user satisfaction.

EXPERIENCE

Full Stack Developer — TechNova Solutions Pvt. Ltd.

2026-01 — 2026-06

Worked as a Full Stack Developer responsible for designing, developing, and maintaining modern web applications using React, Next.js, Node.js, Express.js, and MongoDB. Collaborated with cross-functional teams to deliver scalable, secure, and high-performance applications while following Agile development practices. Focused on building responsive user interfaces, developing REST APIs, optimizing database performance, and ensuring code quality through testing and code reviews.

PROJECTS

Smart Task Management System

Developed a full-stack task management application that enables users to create, organize, prioritize, and track daily tasks. The application includes secure authentication, role-based access, real-time updates, and a responsive interface for desktop and mobile users.

E-Commerce Shopping Platform

Built a modern e-commerce platform featuring product browsing, advanced search, shopping cart, secure checkout, order management, and an admin dashboard. The application was designed for scalability, performance, and an excellent user experience.
